

HYDROCUBE™
HOT & COLD WATER DISPENSER
NP 3310
HydroPlus® / HydroPure™

Rediscover The Space In Your Kitchen

Now you can do away with the clutter of individual appliances like the kettle, thermo flask and storage containers. Spruce up the kitchen at the same time with the modish and space-efficient unit.

Rejoice with Quality Water Goodness

Now you can drink with complete peace of mind. Driven by Korean Made Advanced Ultra Hollow Membrane, enjoy alkaline antioxidant water with HydroPlus® Filter or purified energy water with HydroPure™ Filter. Equipped with Advanced Ultraviolet Germicidal Lamp, the unit is also effective for water disinfection.

Regain Precious Time With Your Loved Ones

Now you can have instant access to hot, cold and room temperature water instead of spending time for separate boiling, cooling and storing.

Reduce Spending The Smart Way

Now you have a unit to produce quality water at a low cost. At just a fraction of the cost of bottled water, converts tap water into clean and fresh drinking water right in the comfort and convenience of your home and workplace.

Giving You More Than Just A Water Dispenser

Not your regular water dispenser, novita HydroCube™ Hot & Cold Water Dispenser NP 3310 is a modern, compact and functional unit for your home and even office. With customisable settings, 1-touch and auto-dispensing options, the NP 3310 will surprise you with extra time and free space; while you delight in quality water and smart savings at the same time.
