

SEVEN TYPES OF FUNCTIONAL WATER

ACIDIC LEVEL

CLEANING & STERILISING KITCHEN UTENSILS

Sanitises & disinfects countertop, chopping board, dish towels & other kitchenware.

ACIDIC LEVEL

WASHING FACE OR BODY

Works as a natural astringent & removes dirt & oil thus reducing the use of chemicals. Also relieves the aggravation of dry & itchy skin, chapped skin & eczema.

PURIFIED LEVEL

MEDICATION / INFANT CONSUMPTION

Provides an alternative to alkaline water for those on medication. Also recommended for infant consumption.

ALKALINE LEVEL

BEGINNER / SENSITIVE STOMACH

Facilitates body adjustment to alkaline water for beginner & those with sensitive stomach.

ALKALINE LEVEL

EVERYDAY DRINKING

Energises, hydrates, slows down oxidation & maintain pH balance of body.

ALKALINE LEVEL

MAKING TEA OR COFFEE

Eliminates the bitter taste of coffee & tea, while enriching the taste & aroma.

ALKALINE LEVEL

COOKING

Brings out the natural flavour of ingredients thus reducing the need for additional seasoning.

Everyone can benefit from drinking HydroPlus® Alkaline Antioxidant Water! Drink up to neutralise excess acid and slow down oxidation in the body. At the same time, feel more revitalised and hydrated with high stable oxygen content and smaller water molecule cluster size.

DRINK

From washing, rinsing, soaking to cooking, HydroPlus® Alkaline Antioxidant Water makes the work easier for you! You can see the difference as it helps to clean better, preserve freshness and maximise flavour.

COOK

Sterilise your counter top, chopping board and other kitchen utensils simply by cleaning them with acidic water! Matching to the natural skin's pH which is slightly acidic, acidic water also cleanses the skin by removing oil and dirt effectively without stripping off its moisture.

MAKE DIFFERENCE

With HydroPlus® Premium Water Ionizers

GETTING THE MOST OUT OF YOUR WATER // Novita HydroPlus® Premium Water Ionizers give you more with 4 alkaline antioxidant and 1 purified water levels for everyday consumption, and 2 acidic water levels for external use. Brimming with quality water goodness, its HydroPlus® Alkaline Antioxidant Water helps to alkalize body, slow down oxidation, hydrate better while also keeping the body energised, revitalized and well-balanced with enhanced detoxification. Your all-in-one unit to drink better, cook up a storm and clean up with ease today, everyday!

OLD RULES, REDEFINED

**GIVING YOU MORE THAN
JUST A WATER DISPENSER**

There is more to the novita
Water Dispenser than you think.

Be surprised with extra time on hand and
much-needed extra space all while enjoying quality
water and savings at the same time.

FIND OUT MORE.

**REGAIN PRECIOUS
TIME WITH YOUR
LOVED ONES**

**REDISCOVER
THE SPACE IN
YOUR KITCHEN**

**REDUCE
SPENDING THE
SMART WAY**

**REJOICE WITH
QUALITY WATER
GOODNESS**

HydroPlus® PREMIUM

KFDA CERTIFIED
MEDICAL DEVICE

WATER IONIZERS

With rigorous quality control in place, novita Water Ionizers are verified under validated test methods to meet national standards.

KFDA
Korea Food and Drug Administration

CERTIFIED MEDICAL DEVICE

With selection of 7 pH levels from alkaline, purified to acidic, choose between 7 types of functional water for everyday drinking, cooking and even cleaning.

7 LEVELS

7 PRESET PH LEVELS

Unique technology ensures continuous supply of water output without interruption and also eliminates the need for maintenance by preventing ionic scale formation.

PATENTED AUTO CLEANING WATER CELL

Certified as medical devices by the Korea Food & Drug Administration (KFDA), novita HydroPlus® Premium Water Ionizers are sophisticated models built for high quality and performance. Utilising a 7-step comprehensive water purification process and 5 platinised-titanium electrode plates, they provide 7 types of functional water for everyday consumption and usage. Auto diagnosis system cleverly notifies of any disorder or abnormality while filter lifespan and authenticity indicator keep a lookout on the filter. Offering utmost customer convenience, the units also come with patented maintenance-free auto cleaning water cell and voice & melody notice.

The LavishCatch

NP 9960

Marrying style and substance, novita HydroPlus® Premium Water Ionizer NP 9960 is crafted with meticulous details to meet both aesthetics and practical needs. Its touch screen panel enhances user experience while the flexi steel hose with handle grip makes it a breeze for maneuvering and dispensing.

The PrimeSelect

NP 9932

Designed for the modern home, novita HydroPlus® Premium Water Ionizer NP 9932 is a portrait of elegance and sophistication. Its touch screen panel enhances user experience while the patented fold-down type dispenser arm ensures easy and space-saving storage.

The GoldenPick

NP 9930

Novita HydroPlus® Premium Water Ionizer NP 9930 adds elegance to your kitchen with its modish colour combination of black and white. Fitting effortlessly into any decor, it also comes with a patented fold-down type dispenser arm for easy and space-saving storage.

• Novita HydroPlus® Premium Water Ionizers are certified as medical devices in Korea under the KFDA. • It is also endorsed as a health device in Korea and Japan. • All HydroPlus® units are not intended to diagnose, treat, cure, or prevent any disease.
• Please consult your physician for further information and specialised medical advice with regards to Alkaline Antioxidant Water.

TRANSFORMATION OF NORMAL TAP WATER INTO ALKALINE ANTIOXIDANT WATER, PURIFIED WATER & ACIDIC WATER

Step 1 WATER PURIFICATION

7-STEP COMPREHENSIVE WATER PURIFICATION Standard Carbon Filter

OR

8-STEP ULTRA WATER PURIFICATION Advanced Ultra Hollow Membrane Filter

Sediment Siever

Filters the suspended substances, rust and sediments etc.

Pre-Carbon Element

Provides first round activated carbon filtering of impurities to improve colour and taste of water while removing odour. Impregnated with silver, it also doubles up as an anti-bacterial element to inhibit the growth of bacteria within the filter.

Calcium Layer

Adds calcium to increase the alkaline mineral content in water, thus facilitating the electrolysis process.

Step 7: Post-Sediment Siever

Step 6: Post-Carbon Element

Step 5: Sediment Siever

Step 4: Calcium Layer

Step 3: Sediment Siever

Step 2: Pre-Carbon Element

Step 1: Pre-Sediment Siever

Step 8: Ultra Hollow Membrane
(Up to 0.01 micron filtration)

Post-Carbon Element

Removes any remaining agrichemicals, disinfectants, phenol, trihalomethane and other harmful chemicals in source water. Enhancing the anti-bacterial effects, the element is impregnated with silver for extra bacteria resistance.

Ultra Hollow Membrane

Traps and eliminates bacteria, algae, fungi, micro-organisms (protozoa, giardia, cysts), rust, metal particles and lead. This ultra-fine filtration effectively removes pollutants and impurities up to particle size of 0.01 microns, while keeping the essential alkalising minerals intact.

NOTE: Filter image shown is a non-contractual image meant solely for better illustration purposes only.

Step 2 ELECTROLYSIS - PLATINISED TITANIUM ELECTRODE PLATES

Smart Intelligence Processor

After comprehensive purification, water enters the patented water cell and undergoes electrolysis. Controlled by the smart intelligence processor, a low voltage electrical flow is introduced through platinised-titanium electrodes which transform normal tap water into 7 types of functional water with more precise pH and ORP values at an instant.

Step 3 7 TYPES OF FUNCTIONAL WATER

NOTE: pH & ORP values/reduction may vary by ± 0.5 and $\pm 150\text{mV}$ respectively, subjected to nature of water source.

<p>2 Acidic Level pH 3.5 / ORP +450mV</p>	<p>1 Acidic Level pH 5.0 / ORP +300mV</p>	<p>0 Purified pH (inherent from water source) ORP (inherent from water source)</p>	<p>1 Alkaline Level pH 8.5 / ORP -150mV</p>	<p>2 Alkaline Level pH 9.0 / ORP -200mV</p>	<p>3 Alkaline Level pH 9.5 / ORP -250mV</p>	<p>4 Alkaline Level pH 10.0 / ORP -300mV</p>
<p>Acidic Level 2</p> <p>Cleaning & Sterilising Kitchen Utensils</p> <p>Sanitises & disinfects countertop, chopping board, dish towels & other kitchenware.</p>	<p>Acidic Level 1</p> <p>Washing Face Or Body</p> <p>Works as a natural astringent & removes dirt & oil thus reducing the use of chemicals.
