Mail of the month

From Vetha Dinesh: "In this fast-paced society where most of us hold stressful jobs as career women, homemakers and mothers, I am glad that *The Weekly* is here to help make our lives easier. Serious topics like health and finance are both informative and entertaining, while the home and parenting tips are really practical and useful. Of course, the beauty and fashion sections are fabulous as they feature the things most of us crave. Please continue to feed our mind, heart and soul!"

Post of the month

Teo S P shares her resolution for the New Year on *The Weekly's* Facebook page: "I used to snack on junk food in between meals. Work stress made me munch on these unhealthy foods, so I started putting on weight and jumped from an M size to an XL size in just two years. Last July, I went for a health checkup and was diagnosed with high blood pressure. From that day onwards, I promised myself that I'd work harder at taking care of my health. So in 2014, I plan to motivate myself to exercise more and follow a healthier diet."

OUR MAIL + POST OF THE MONTH SENDERS BOTH WIN A NOVITA HYDROPLUS WATER PITCHER NP 2290 WITH A SIX-PIECE FILTER PACK, WORTH \$168

Designed with a HydroPlus Filter, the Novita HydroPlus Water Pitcher NP 2290 provides you with refreshing water that's fortified with alkaline and antioxidants. These help to slow down oxidation and enhance detoxification in the body to promote better wellbeing. Fill it with water in one step, thanks to the Instant Fill Lid, and replace the filter when needed based on the Filter Lifespan Indicator.

Our Hot Husband of the Month wins a soothing Aromatic Body Bliss Massage and Milk Bath for two (90 mins), worth \$460, from St. Gregory at Pan Pacific Orchard, Singapore. Visit www.stgregoryspa.com for more information.
